ABSTRACT

This guide contains indoor and outdoor gardening activities for children. The activities teach children how plants live and grow; how the weather, temperature, and seasons affect all living things; how living things come out of seeds and soil; how the birds, earthworms, bees, and toads help in the garden; and how the whole environment works together like an amazing puzzle. Activities are divided into the following sections: (1) Planting Basics; (2) Pesky Pets; (3) Garden Partners; (4) Tasty Ideas; (5) Fun with Herbs; (6) Grow Some Fun; (7) Make and Do Projects; (8) Think Ahead; and (9) Future Gardens. A list of resources is also included. (JRH)
